Dear colleagues,

Here the almost final version of the health guidance for you to test before the final version. Unzip the folder and files to your computer or to an USB. USB recommended.

In the folder, when you click on START.htm the following screen should open

C G:\ECHO Health Guide 1404\START.htm - Internet Explorer		
G S (ECHO Health Guide 1404\START.htm	P 💌 47 @ G:\ECHO Health Guide 1404\ × 🙆 Your prezis   Prezi	
Introduction (required reading)      1.   Operation/Technical     1.1.   Scenarios     1.2.   Main     Disease/Conditions   1.3.	★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★	
1.4. Health Systems   2. Decision tree   2.1. Short Indicative	1. <u>Operation/Technical </u> 1.1. <u>Scenarios</u> <b>■</b> <i>∎</i> (prezi)	
2.2. Full Indicative	1.1.1. <u>Conflict</u> 🔁 🙋 (prezi)	
3. Frame	1.1.2. <u>Hydro-meteorological (floods, storm)</u> 🔁 🛎 (prezi	i)
	1.1.3. <u>Geophysical (earthquakes)</u> <b>a</b> <u>(prezi)</u>	
file:///G:/ECHO%20Health%20Guide%201404/Table%20of%20conten		

The left frame allows you to navigate the right frame.

When you select any topic ppt or pdf in the right frame, the presentation should open as follows:

By clicking in the left frame you can return to the original screen and choose another topic.

To the right of each ppt or pdf there is a guided prezi online version. To open it you should either click on it which may request your permission to open in another tab or it also opens with control+double click. Prezi versions are guided and contain some extra material, but requires a good internet.

To run this from an android device or an ipad, unzip and place all files in the device memory or SD card. With a file manager open the file OS or android and it should work. With some application such as "file shortcut" or similar, you can place a direct access in the screen of your device.

As this is an almost final version so any advice on delivery from you we will try to integrate.

Warm regards

Jorge jorge.castilla-echenique@echofield.eu
