Ebola PSA from First Lady of Guinea, Hadja Djene Kaba Condé (in French)

Published September 23, 2014

(In French) The First Lady of Guinea, Hadja Djene Kaba Condé, delivers a PSA about Ebola. Washing hands well can help protect yourself and your family from Ebola and also other diseases. Ebola is a very serious disease. But it is possible to survive and heal with proper medical treatment. If you or someone you know thinks he has the disease, go to the hospital immediately for treatment.
