

# Ebola outbreak response

Posted on [November 27, 2014](#) by [TMEadmin](#)

Hello there! We're glad you've dropped by our website. The chances are you don't know who we are or what we do... let me explain.

**We create and distribute interactive educational DVDs and online lessons, free of charge, to remote places in their own local languages.**

We currently have 32 lesson topics (an array of subjects, such as Basic Hygiene, Avoiding Malaria, Dangers of Smoking, HIV AIDS and When to Have a Baby) and are always expanding. Our most recent lesson was created in response to the Ebola crisis, and is titled **Avoiding Ebola**.

This lesson is available in two formats – our classic interactive DVD, or a new online viewable format, TMElite. Both have versions translated into English, French, Krio and Runyankole (Hausa and Yoruba on their way).

**For DVDs: either order online [here](#), or [start a conversation with us](#).**

**For TMElite: browse our library [here](#).**

**Or start watching the Krio lesson right away, [here](#).**
