Mende Ebola Guidance Package

September 2014

<i>Overarching Messages</i>	Ngowili Vulii
Ebola is real and kills. But you can protect yourself, your family, and your community.	Ibola lo na tao a numu waa lo .Kee ba biayekpe mahugbeelɔ, bi mbondeisia, ke bi guwui.
Be alert – help stop the spread of Ebola. Speak with your local community leader if you suspect someone with Ebola in your community or call the toll free Ebola Hotline XXXX for advice.	Ye kpaokpao-kɔma wie ko Ibolei l gbe vayafayala. Yεpe numui na gama l loni bi guwui gulɔ ina l lii heinga numu gbi ma Ibola hegbe ngi ma wu guwui hu o toil wie Ibola ndandoi hu ndahin va 117.
Do not touch a sick person with suspected Ebola or someone who has died from Ebola.	Ba jaa a hegbeemɔ na wu gilinga la ke Ibolei lo ngi ma oo numui na Ibola hegbei l ngi waanga.
Ebola causes sudden high fever, extreme tiredness, headache, body pain and loss of appetite. If you have a sudden high fever after contact with a person with Ebola or after attending a funeral, go to the nearest health facility.	Ibolei a walɔ a kaka gɔle wumei, kahugbɔyɔ hulewengɔ, nguu gbalei, kahu gbakpa tawao a mɛhe ndiigbualɔ bi ma. Ina kaka gɔle wuile bi ma ji ba jaa a numui na Ibolei l ngi ma oo ji ba li haa gbɔwumei, li halei wεlei na bu l bi gbuanga.
Early treatment of Ebola at a health facility increases your chance of survival. By going to the health facility the moment you have symptoms, you protect your family and community and help stop the spread of the disease.	<b>Ibolei halei le kaka haalei wεlei bu a piels bi bawolei ma l gutu. Lila haale wεlei bu ji ba tɔmaselisia lo ba bi mbondeisia mabawolɔ ke bi guwui tao bi pie hegbei l gbe a vafaya la hu.</b>
Wash your hands frequently with soap and water after every social contact.	Bi lokoisia wua kpelema gbi a bawei ke njei ji b a jaa a numu gbi.

<i>Supporting Messages</i>	Mbu hou Wowilisia
Ebola enters your body through your mouth, nose and eyes, or a break in the skin. To catch Ebola, you must touch the bodily fluids of a person with Ebola and then with dirty hands touch your eyes nose or mouth. Bodily fluids include sweat, stools, vomit, urine, semen, vaginal fluid and blood.	Ibolei a wualɔ bi luwui hu a bi lei huwe, bi hokpe ke bi yameisia, o bi luwui ye ɔnamei. Koɔ bi Ibolei majɔɔ, ba jaa lo a njei nasia ta gbua numu luwui hu Ibolei l ngi ma, na woma a toko nohɔngɔnga ke bi jaanga a bi yameisia, bi hokpei o bi lei. Njei nasia ta gbua numu luwui hu ta mia a, fɔndei, kpoisia, mbalii, ngolii, njei na gbua a hindoi hu, njei na gbua nyahei ma ke ɔnamei.
A person who has died of Ebola is still highly infectious and should not be touched. Call the toll free Ebola Hotline XXXX to arrange for the body to be picked up or contact your local community leader.	Numui na Ibolei l ngi waanga l ngi hegbenɔ a yεla vulii tao numu gbi a jaa a ngie. Ibola landoi lolɔ ko ti hugbatε wie ye pomei wumbu va o nde wu guwui lokɔima

<p>Ebola is spread to humans from some animals like bats and monkeys. People can catch the disease touching or eating a sick or dead animal. Never eat animals that are found sick or dead. Now that Ebola is in the human population it is being spread from human to human.</p>	<p>Ibolei a vayalɔ̄ numuvuisia ma a huan lengaa huwe kia nyikɔ̄ ndɛvɛngɛisia taa kuangɛisia tin a. Nuungeisia ta ye hegbei ji majɔ̄ lɔ̄ a jaa la a tie ɔ̄ ji ta huan hegbenɔ̄ ɔ̄ haango i me. Baa huan gbi me na ba male hegbenɔ̄ ɔ̄ haango. Kia naa Ibolei i wilenga nungeisia lia ta vafayama hu a numuvuisia huwe.</p>
<p>Ebola can also be caught from a used razor at a barber shop, or when receiving an injection with a needle that has already been used (hospital or tattoo parlour), or if you are cut in a ceremony with a knife that has been used on someone who is infected. You cannot get Ebola by talking to people, walking in the street or shopping in the market.</p>	<p>Ba Ibolei majɔ̄ lɔ̄ a kpeka wovei miando ta ngui wole na, ɔ̄ ji ta ye bi bɔ̄ɔ̄ ma a mijii na ti yengenga la govama (halewɛlɛibū ɔ̄ numu luwu ma nyɛimɛi), ɔ̄ ina ti bi ɔ̄nailɔ̄ komɛi nasia hu ta pie a bowei na ti yengenga la numu weka ma na ngi hegbenɔ̄. Beε Ibolei majɔ̄ a yɛpɛla numu gama, njiaa va pelei ma, ɔ̄ felegɔ̄ la jɔ̄pɔwahu.</p>
<p>If you or someone you know falls sick with sudden high fever, extreme tiredness, headache, body pain and loss of appetite, consult your local community leader and immediately call the Ebola Hotline at XXXX for advice.</p>	<p>Ina bia ɔ̄ numui na bi ngi gɔ̄ongo kaka gɔ̄lɛ I wililɔ̄ ngi ma, kahugbɔ̄yɔwaa I ngi hou, I wua gbala, ngi gahuisia ta gbakpa, ke mɛhe ndiigbua ngi ma, nde bi guwu lɔ̄kɔbi ma. Ke bi toil wie gama Ibola landoi hu 177 ndahin va.</p>
<p>If someone you know dies with symptoms of Ebola do not touch the body. Call immediately the toll free Ebola Hotline and consult your local community leader. Pay your respects without touching, kissing, cleaning or wrapping the body. The body can be prayed over to complete religious practices, but at a safe distance of one meter, without touching. The person's soiled clothes and bedding are contagious and must be burnt. The house, latrine and person's room must be disinfected by trained staff. Call the toll free Ebola Hotline.</p>	<p>Ina numui na bi ngi gɔ̄ongo haailɔ̄ a Ibola lɔ̄maselinga ba jaaa a ye pomei. Toli wie gama Ibola landoi hu tao bi nde wu guwu lɔ̄kɔbi ma. Bi baagɔ̄mɛisia ve nahi bɛ jaa la, bɛ ngi la gɔ̄mɛi, bɛ ngi wua ɔ̄ bɛ ye pomei na mbɛmbe kula hu. Ta he wiɛl ye pomei ma kɔ̄ ti Ngewɔ̄ vɛlia yakpua ngi va, kɛɛ nduahu a ye lɔ̄ ti ma na hi te jaa la. Haamɔ̄i gula nɔ̄hɔinsia ngi gbukɔ̄ yaguleisia hegbei lɔ̄ ti hu tao mahoungɔ̄ ti mɔ̄. Peɛei, kpobomɛi ke numui na yiimei nasia ti ngaango ta hale valifalilɔ̄ na. Toli wie Ibola landoi hu 177.</p>
<p>Children orphaned or separated from caregivers due to Ebola may be very fearful and will need care and support. If a child is orphaned or separated immediately contact a trusted child protection actor to initiate reunification with relatives or other trusted members of the community known to the child, such as neighbours or relatives.</p>	<p>Pondo lengeisia ɔ̄ nasia ti gbuango nasia ma ti ti mahugbeema a Ibolei huwe ti maluwangɔ̄ yɛla tao ta gbeɛlɔ̄ mahugbee ke kpɔ̄ma va. Ina ndoi I wotenga a pondolo ɔ̄ ngi luahu gɔ̄lenga nde kaka nungei nasia ma ta ndengeisia mahugbee ɔ̄ ti hugbatɛ wie pie va ti hu i kpɔ̄ a ti mbondeisia ɔ̄ nungei nasia wu langɔ̄ a tiewu guwui hu nasia ndopoi I ti gɔ̄ongo, kia nyikɔ̄ ti heinyuɔ̄isia ɔ̄ ti mbonda wekeisia tin a.</p>

The body of a person with Ebola should only be handled by people who are trained in safe burial practices.	Numui na I haanga a Ibola ngi womei nasia lekee ti gaango ye hei nasia gbawu va tia mia ta jaa la.

<b><i>Treatment: Information for those seeking treatment for a person with symptoms of Ebola</i></b>	Hale hindeisia: Veisia nasia va ti halenga gokoli ma numu na va Ibola lomaselisia ti ngi ma
Free treatment for Ebola is available at health facilities.	Ta numu gbi lekee haale lo gbaama na Ibolei I ngi ma halewaleisia bu
It is always best to seek treatment at your nearest health facility. Early treatment increases your chance of survival compared to staying at home.	Nyandengoe kpelama gbi leke bi bi hale ma gokoli halewalei na bu i bi gblanga. Bi hubunga a hale majoo a bi bawolei matolei I lewe ji ma ba ye heini pel ei la.
At the health facility the medical team provides treatment of the disease by: lowering the fever, providing rehydration and good nutrition, reducing pain and controlling infection.	Haale walei bu haale yengeibleisia ta haale velo: na a kolei yaye, ta njei matolo bi hu ke mhe yekpe, kpalei ya I yei tao ta gbekpa hegbei gul.
Going to the health clinic the moment you have signs and symptoms protects your family and your community and prevents the spread of the disease.	Liva halewalei bu a watii na ba tomaseli jisia longa ba bi mbondeisia ke bi guwui ke I pie hegbei ee vayafaya hu.
Do not care for a sick person at home. Entire families get sick and die from treating one person at home.	Ba hegbeemahugbee pelei bu. Mbondeisia gbi ta hegbelo ke ti haa numu yakpe mahugbee va pelei bu.
If you or someone in your family or community is sick, immediately contact your local community leader and call the toll free Ebola Hotline for advice at XXXX.	Ina bia oo numu yila bi mbondei hu oo bi guwui hu I hegbenega, nde kaka bi guwu hu gul lomei ma ke bi Ibola landoi loli ndahin va 177.
Ebola treatment centres have been established in major hospitals and field centres to provide the safest possible care to persons with symptoms of Ebola.	Ibola halemeisia gbatengoi haalewale wawaisia bu ke mia ta hegbleisia magba na ko ti kpoma yekpe ve nungei nasia we Ibola lomaselisia ta ye ti ma.
In areas where treatment services are fully occupied or not yet established, Ebola care or referral centres are being established to help stop the spread of the disease. Ebola care or referral centres can also help communities track and monitor contacts of patients who may have also caught the disease.	Hindei nasia mia hale vemeisia na vendangoo kpanj oo ti ya na gbateni, Ibola mahugbee, o hindei nasia ta ti yoyo na ta na gbatelo ko ti kpoma wie ko hegbei a vayafaya hu. Ibola mahugbeei o hindei nasia ta ti yoyo na ta kpoma wie lo kuwusia ma, nungeisia ti hegbei na majoonga ti gokoli va ke ti yabeli va.
It is important that you follow guidance from	Mahouingoe wu to ndahin nasia ma a gbua

your local community leader, health facility or the toll free Ebola Hotline on what is the best care available to you.	wu guwu loklo i ma, hale yengemei o Ibola landoi gama koloni mahugbee yekpei kpei na ma a ye wu va.
Wash your hands frequently with soap and water after every social contact.	Bi yeya wua kpema gbi leke a mbawei ke njei ji ba jaa a numu.
If it is impossible for you to travel or contact your local health facility and you or a family member falls sick with suspected Ebola, immediately provide them with their own space. Provide them with their own plate, cup, spoon and towel. Wash these items with water and detergent or with disinfectant separately from the rest of the household.	Ina be gu ba li hinda gbi oo nde va bi haale welei ma ke bia oo bi mbondahu mama I hegbeenga a Ibola hegbe, ti go kaka a ti nda yem ei, ti go a ti nda galoi, nja gbole hakei, mitei, ke ngi mayila gulei. Hakei jisia wua a njei ke hale yei kpuango gba hakei nasia ma ti pelei bu.
Assign one person to take care of the individual affected. Family or community members who have fully recovered from Ebola cannot catch it again during this outbreak and can safely provide care to others who are sick.	Numu ya nge hegbeemoi mahugbee va. Mbondahumoo o kuwu hubleisia ti mbawonga Ibola hegbei hu te ta majoo gboma a watii ji hegbei ji I latonga tao ta kpoma wielo nasia ma ti hegbeenga.
If you provide care, you need protective equipment. Use dish gloves, or plastic bags as gloves. Use a raincoat worn backwards as an apron. Don't touch the person with Ebola or their bodily fluids without protective equipment.	Ina bi kpoma velo, ba gbeeloo bi mahugbee hakanga va. Tokowuahu hakanga yayenge, oo hakawu plastikisia ngua va loko hu. Nja hu ho in loma yayenge na ba pu a woma wie pele va bi lomei mahu a gulb wie. Baa jaa a numui na Ibolei I ngi ma oo njei nasia ta gbua ti luwuisia hu ina mahugbee hakanga ti bi ma
Provide the sick person with plenty of drinks, such as water, soup, tea and locally available beverages. Alcohol should not be given to persons sick or suspected of Ebola infection.	Kpolehani gboto ve hegbeemoi wie, kia nyiko njei na, supui, tii, ke kpole hani ye nasia ma ti majoo mu guwusia hu. Baa ndo gbayango ve hegbeemoi we oo numui na wa gili la ke Ibola hegbei lo ngi ma.
Wash your hands frequently with soap and water after every contact.	Bi yeya wua kpele ma gbi leke a mbawei ke njei ji ba jaa a numu.

<b><i>Information for those who have recovered from Ebola</i></b>	Vei nasia va ti mbawonga Ibola hegbe yeya
If you have recovered from Ebola you cannot catch it again during this outbreak.	Ina bi mbawonga Ibola hegbe hu be ya gboma majoo watii ji hu hegbe ji I wanga.
You can help the community by taking care of other sick people with Ebola. Follow hygiene rules so you do not carry the fluids	Ba gbo lo kuwui ma a hegbeblei nasia mahugbee la Ibolei ti ma. Too sewe sewe jaweisia woma ko ba li a njei nasia ti gbua hegbeemoo ma mbonda

of a sick person to other family or community members.	weka gama oo kuwuuhubleisia.
You can no longer infect others. However, men who recover from Ebola should wear a condom during sexual contact for at least 3 months after recovery – Ebola is present in the semen up to this time.	Bee ya pie numu wekanga ta hegbe, na hu gbi, hingei nasia ta mbawo Ibole hegbei hu mahoungoo ti kondomei yayenge kpelemei na ta gbelle nyaha ma ngawu sawa va I hiye watii na ma ta mbawo- Ibolei lo njei nahu ta gbua ti ma I to watii na ma.

<b><i>Contacts: Information for those who have had close contact with a person with Ebola</i></b>	Vei nasia va ti ye jaanga a numui na Ibole I ngi ma
If you have touched or been in close contact with someone with Ebola or attended a funeral of someone who has died of Ebola you may have been exposed to the disease.	Ina bi jaanga oo bi gbelenega numu yila ma na Ibolei I ngi ma oo bi ya numu gbawu ma na Ibolei I ngi waanga, kenga bi hegbei ji majconga
Contacts of people with suspected Ebola are those who have:	Gbelé va nungei nasia ma ta gili a tie ke Ibolei lo ti ma tia mia a jisia ta:
Slept in the same household with a person suspected of having Ebola	Yii pele yila bu ta numui na ti gilingoo la ke Ibolei lo ngi ma
Touched a person with suspected Ebola (alive or dead)	Njaa a numui na ti gilingoo la ke Ibolei lo ngi ma(ngi vuluungoo oo ngi haangoo)
Had sexual contact with a person with suspected Ebola	Gbelé numui na ma ti gilinga la ke Ibolei lo ngi ma
Touched the blood or bodily fluids of a person with suspected Ebola (alive or dead)	Njaanga a njei nasia ta gbua numu hu ti gilingoo la ko Ibolei lo ngi ma (ngi vuluungoo oo ngi haangoo)
Touched the personal belongings of a person with suspected Ebola, including their clothes, towels and bed linen	Njaanga a numui na yeya hakeisia ti gilingoo la ke Ibolei lo ngi ma kpelengoo ti guleisia ma, ti mayila guleisia ke ti gbukoya guleisia
Breastfed by a woman with Ebola	Nyiniyei na nyahei na Ibolei I ngi ma a fe ndoi we
Breastfed or wet-nursed a baby with Ebola	Nyiniyei oo numui na Ibolei I ngi ma a ndoi mahugbee
If you think you have come in close contact with someone with suspected Ebola you should closely monitor yourself and your family's health and stay close to your home.	Ina bi gilingoo la ke bi gbelenega numui na ma ti gilingoo la ko Ibolei lo ngi ma ba biayekpe yabeesoo vulii ke bi mbondeisia ti gahu tao bi hei bi ye pele la
Health workers may ask you to report the status of your health or visit you every day for 21 days until they are sure you do not show signs and symptoms of Ebola.	Haale yengebleisia ta bi moliloo a bi gahui yeyii oo ti foo bi ma folo gbi jii nuu gbawoongoo mahu yila va haa ti lala ke bi tomaseli gbi geni Ibole hegbe va.
If you think you may have been exposed to Ebola minimize close contact with other family	Ina bi gililoo la ke bi Ibolei majconga bi gbelenela mbonda wekesia ma mahuyei . Tomaselisia

members. Signs and symptoms for Ebola can appear 2 - 21 days after being exposed to the disease. If you have a sudden high fever report to the health facility or call the toll free Ebola Hotline on XXXX.	Ibolei va ta gels folo fele I to foloi nnu gbocys mahu yila ma jib a hegbei majoo. Ina kaka gole wuiib bi ma konna hale walei ma o Ibola landoi loli 177
You cannot spread Ebola disease until symptoms like sudden high fever and headache appear. A person who does not have physical symptoms cannot infect others.	Bee ngu a Ibola hegbei vayafaya la hu haa tomaselisia kia nyikaka gole na ke ngu kpalei ti ngue. Numui na Luwuma Ibmaselisia ti ngi ma ee ngu a hegbei lewela nunga wekanga ma.
If you or a family member falls sick with sudden high fever, immediately contact your local community leader and call the Ebola Hotline at XXXX for advice. Go to your nearest health facility for treatment.	Ina bia oo bi mbondamoi yila I hegbele a kaka gole wuma, nde kaka wu guwuhulokoi ma ke bi Ibola landoi loli 177 ndahin va. Li hale walei na gama wu gblanga bi haale va.
Please note - Ebola can be transmitted between a baby and their mother (or wet-nursed) if one of them is infected. However, babies should continue to be exclusively breastfeed until 6 months and with complimentary feeding up to two years or beyond.	Konelei nda nemahu- Ibola a lewels ndola ta ngi nje luahu (oo ngi mahugbeemoi) ina ye ngila hegbengoe. Na hu gbi, ndolanga ta loo haa nyinii lo gbole ma gawu wota va ke mehe wekanga foo fele va oo I lewe ma.
Breastfeeding should only be stopped if a trained health worker determines there is a risk to continue nursing or if either mother or child shows symptoms of Ebola.	Ba gbeeloo nyinii vela ma ina haleyengemoi na ngi gaango ndenga ye ma I houni liva gub ma nyii velei oo ina njei oo ndoi I Ibola Ibmaselisia genga.

<b><i>Safe Burial Practices: Information for those handling a person with Ebola who has died</i></b>	Haa gbawu welei nasia ti mabawongo: Veisia nuu ngei nasia va ta njaa a numui na Ibolei I ngi waanga
If somebody in your family dies with suspected Ebola, immediately call the toll free Ebola Hotline at XXXX for disinfection of the house and removal of the body.	Ina numu gbi bi mbondei hu I haanga ke wu gilingo la ke Ibolei lo ngi ma, Ibola landoi loli kaka ko ti wa ti haale vali pelei bu ke ti li a ye pomei
Pay your respects without touching, kissing, cleaning or wrapping the body before burial or cremation. The body can be prayed over to complete religious practices, but at a safe distance or one meter, without touching. Ebola is very infectious even after death.	Bi baagomeisia ve ke ba njaa la, ba ngi lagomei, ba ngi wua oo ba ngi kasange pein ta ya ngi gbawu oo ba ngi mo. Ta he lo pomei ma ko ti veli jaweisia yakpua, kee nduahu aa ye wu ma nahi we njaa la. Ibola I yeni a hegbe nyamu lo ngi haango be woma.
The body of a person with Ebola should only be handled by trained personnel using appropriate protection. Bodies should be buried or cremated	Numui na I haanga a Ibolei nasia leke ti gaango tia ma ta njaa la ti mayili nah u a ti mabawo. Nungei nasia ti gaango a Ibola haagboleisia tia mia ta pomeisia gbawu oo ti

by teams trained in safe burial procedures.	mɔ.
Under no circumstances should a body be touched or moved after burial.	Sabu gbi ii na jaa va a pomei ɔɔ wu kpuva va I hiye ngi gbɔwulei ma.
Wash your hands frequently with soap and water after every social contact.	Bi lokoisia wua kpelema gbi lekee a mbawei ke njei ji ba a numu.

<i>What can you do to Stop Ebola in your community?</i>	Gbɔ baa pie kɔ Ibolei I gbɔyɔ bi guwui hu?
Begin by educating and protecting yourself, your family and your community.	Tato a bi biayekpe gaa la ke bi mahugbee la, bi mbondei ke bi guwui.
Contact your local political or community leader to devise ways to inform and engage your community. Also contact NGOs & INGOs and volunteer with them.	Nde numui na ma I wu yama gbuama gɔmɛti hu ɔɔ kuwuholokɔi kɔ I pelenga gɔkɔli nde va wu ma wu guwui. Yερε gbɔma kpɔmablei nasia gɔmɛndibla ya a tie ke wa tieni wu yenge a goyila.
Speak with influential leaders like - Chiefs & Traditional Leaders, Imams, Priests & Pastors, women's and youth groups, traditional healers & societal heads about their role in educating the community about how to prevent Ebola.	Yερε tɔwɔmalokɔisia gama kia nyikɔ-mahangeisia, Imamisia, Ngewɔ veli nunga wawaisia, nyahangeisia ta foningeisia ti hug bateisia , mu gondi haalebleisia haalelokɔisia kɔloni pelei na ma ta ti mbondeisia gaa la kia mahoungɔ ti Ibola hegbei gbee la.
Volunteer with Community Health Workers going door-to-door educating the population.	Gbεlεε mbondahu haleyengebleisia ma liva peleisia la wa nungeisia gaa.
Speak with teachers about the importance of creating theatre groups and other playful activities that provide children with educational opportunities about Ebola.	Yερε kaamɔisia gama kia mahoungɔ ti ndolii guwuisia gbatε ke ndolii gala wekanga nasia ta ndengeisia gaa la kɔcolonI Ibola hegbei ma.
Speak with your neighbours about how you can organize yourselves and support prevention of Ebola.	Yερε bi heinyɔuisia gama kia mahoungɔ wu wayekpe hugbatε kɔ wu lokohei pelei nasia bu wa pie Ibolei a wa.
