

# DISASTER PREPAREDNESS CAMPAIGN

## GOI - UNDP DISASTER RISK REDUCTION PROGRAMME

Be extra cautions while working in the kitchen. Make it a habit to switch off the gas stove after use.

Switch off the gas supply from the cylinder regulator, after use.

Look out for old wiring or broken electrical fittings and report any hazardous condition to your electrician.

Switch off electrical appliances and pull out plugs from switch boards when not in use.

Use electrical extensions wisely. Use only one plug in a socket. Do not overload them.

Keep clothes, curtains or other combustible substances at least three feet away from room heaters or chulas.

### FIRE SAFETY

#### SIMPLE TIPS TO AVOID FIRE ACCIDENTS.

Do not keep clothes, curtains and other combustible substances near room heaters or chulas.

Do not allow children to play with match boxes and other inflammable substances.

Keep fire extinguishers in working condition at your home/office/school and learn how to use them

Don't run.

IN CASE YOU CATCH FIRE.

Roll over ground to put off the fire.

Never stand up. Always crawl low on ground and keep your face covered.
