

Checklist for recovery and reconstruction

Please change text to:

The checklist, derived from the programmatic actions outlined in the *Including children with disabilities in humanitarian action: General guidance*, can help determine whether key actions to include children and adolescents with disabilities in recovery and reconstruction are being taken. Completing the checklist may require consultation with other colleagues and stakeholders, perhaps through a team or coordination meeting. The guidance with practical actions and tips related to this checklist as well as additional printable copies of the checklist can be found at training.unicef.org/disability/emergencies.

Considerations for including children with disabilities in recovery and reconstruction

Coordination and planning

Are collaborations with ministries and departments that provide services for children with disabilities sustainable for the long term?

Planned
In progress
Completed

Notes:

Assessment, monitoring and evaluation

Have disability disaggregated data been integrated into national information systems (e.g., Health Information Systems, Education Management Information Systems, Child Protection Information Management Systems)?

Planned
In progress
Completed

Notes:

Considerations for including children with disabilities in recovery and reconstruction

Assessment, monitoring and evaluation , cont.

Have lessons-learned exercises included good practices and challenges related to inclusion of children with disabilities?

Planned
In progress
Completed

Notes:

Are children with disabilities, their families and DPOs consulted as part of recovery and reconstruction efforts?

Planned
In progress
Completed

Notes:

Considerations for including children with disabilities in recovery and reconstruction

Accessible infrastructure

Does reconstruction of infrastructure (e.g., schools, playgrounds, hospitals, community health clinics) have disability accessibility as a criterion?

Planned
In progress
Completed

Notes:

Procurement and supplies

Have partnerships been established with Government and service providers for providing assistive devices for children with disabilities?

Planned
In progress
Completed

Notes:

Considerations for including children with disabilities in recovery and reconstruction

Human resources

Do humanitarian-related databases and rosters capture information on staff and personnel with expertise on disability?

Planned
In progress
Completed

Notes:

Funding and budgeting

Do reconstruction budgets include funding for accessible facilities and services for children with disabilities?

Planned
In progress
Completed

Notes:

Considerations for including children with disabilities in recovery and reconstruction

Capacity building

Have humanitarian staff received training on inclusion of children with disabilities (e.g., disability inclusive programming, communicating with children with disabilities, adapting information)?
