DISEASE CONTROL PRIORITIES • THIRD EDITION

Series Editors

Dean T. Jamison
Rachel Nugent
Hellen Gelband
Susan Horton
Prabhat Jha
Ramanan Laxminarayan
Charles N. Mock

Volumes in the Series

Essential Surgery
Reproductive, Maternal, Newborn, and Child Health
Cancer
Mental, Neurological, and Substance Use Disorders
Cardiovascular, Respiratory, and Related Disorders
Major Infectious Diseases
Injury Prevention and Environmental Health
Child and Adolescent Health and Development
Disease Control Priorities: Improving Health and Reducing Poverty

DISEASE CONTROL PRIORITIES

Budgets constrain choices. Policy analysis helps decision makers achieve the greatest value from limited available resources. In 1993, the World Bank published *Disease Control Priorities in Developing Countries (DCP1)*, an attempt to systematically assess the cost-effectiveness (value for money) of interventions that would address the major sources of disease burden in low- and middle-income countries. The World Bank's 1993 *World Development Report* on health drew heavily on *DCP1*'s findings to conclude that specific interventions against noncommunicable diseases were cost-effective, even in environments in which substantial burdens of infection and undernutrition persisted.

DCP2, published in 2006, updated and extended *DCP1* in several aspects, including explicit consideration of the implications for health systems of expanded intervention coverage. One way that health systems expand intervention coverage is through selected platforms that deliver interventions that require similar logistics but deliver interventions from different packages of conceptually related interventions, for example, against cardiovascular disease. Platforms often provide a more natural unit for investment than do individual interventions. Analysis of the costs of packages and platforms—and of the health improvements they can generate in given epidemiological environments—can help to guide health system investments and development.

DCP3 differs importantly from *DCP1* and *DCP2* by extending and consolidating the concepts of platforms and packages and by offering explicit consideration of the financial risk protection objective of health systems. In populations lacking access to health insurance or prepaid care, medical expenses that are high relative to income can be impoverishing. Where incomes are low, seemingly inexpensive medical procedures can have catastrophic financial effects. *DCP3* offers an approach to explicitly include financial protection as well as the distribution across income groups of financial and health outcomes resulting from policies (for example, public finance) to increase intervention uptake. The task in all of the *DCP* volumes has been to combine the available science about interventions implemented in very specific locales and under very specific conditions with informed judgment to reach reasonable conclusions about the impact of intervention mixes in diverse environments. *DCP3*'s broad aim is to delineate essential intervention packages and their related delivery platforms to assist decision makers in allocating often tightly constrained budgets so that health system objectives are maximally achieved.

DCP3's nine volumes are being published in 2015, 2016, 2017, and 2018 in an environment in which serious discussion continues about quantifying the sustainable development goal (SDG) for health. *DCP3*'s analyses are well-placed to assist in choosing the means to attain the health SDG and assessing the related costs. Only when these volumes, and the analytic efforts on which they are based, are completed will we be able to explore SDG-related and other broad policy conclusions and generalizations. The final *DCP3* volume will report those conclusions. Each individual volume will provide valuable, specific policy analyses on the full range of interventions, packages, and policies relevant to its health topic.

More than 500 individuals and multiple institutions have contributed to *DCP3*. We convey our acknowledgments elsewhere in this volume. Here we express our particular

gratitude to the Bill & Melinda Gates Foundation for its sustained financial support, to the InterAcademy Medical Panel (and its U.S. affiliate, the National Academies of Science, Engineering, and Medicine), and to the External and Corporate Relations Publishing and Knowledge division of the World Bank. Each played a critical role in this effort.

Contents

Foreword	xiii
Preface	xv
Abbreviations	xvii

1. Child and Adolescent Health and Development: Realizing Neglected Potential 1

Donald A. P. Bundy, Nilanthy de Silva, Susan Horton, George C. Patton, Linda Schultz, and Dean T. Jamison

PART 1 ESTIMATES OF MORTALITY AND MORBIDITY IN CHILDREN (AGES 5–19 YEARS)

2. Mortality at Ages 5 to 19: Levels and Trends, 1990–2010 25

Kenneth Hill, Linnea Zimmerman, and Dean T. Jamison

3. Global Nutrition Outcomes at Ages 5 to 19 37

Rae Galloway

4. Global Variation in Education Outcomes at Ages 5 to 19 47

Kin Bing Wu

5. Global Measures of Health Risks and Disease Burden in Adolescents 57

George C. Patton, Peter Azzopardi, Elissa Kennedy, Carolyn Coffey, and Ali Mokdad

PART 2 IMPACT OF INTERVENTIONS DURING THE LIFE COURSE (AGES 5–19 YEARS)

6. Impact of Interventions on Health and Development during Childhood and Adolescence: A Conceptual Framework 73

Donald A. P. Bundy and Susan Horton

7. Evidence of Impact of Interventions on Growth and Development during Early and Middle Childhood 79

Harold Alderman, Jere R. Behrman, Paul Glewwe, Lia Fernald, and Susan Walker

- 8. Evidence of Impact of Interventions on Health and Development during Middle Childhood and School Age 99**
Kristie L. Watkins, Donald A. P. Bundy, Dean T. Jamison, Günther Fink, and Andreas Georgiadis
- 9. Puberty, Developmental Processes, and Health Interventions 107**
Russell M. Viner, Nicholas B. Allen, and George C. Patton
- 10. Brain Development: The Effect of Interventions on Children and Adolescents 119**
Elena L. Grigorenko

PART 3 CONDITIONS AND INTERVENTIONS

- 11. Nutrition in Middle Childhood and Adolescence 133**
Zohra Lassi, Anoosh Moin, and Zulfiqar Bhutta
- 12. School Feeding Programs in Middle Childhood and Adolescence 147**
Lesley Drake, Meena Fernandes, Elisabetta Aurino, Josephine Kiamba, Boitshepo Giyose, Carmen Burbano, Harold Alderman, Lu Mai, Arlene Mitchell, and Aulo Gelli
- 13. Mass Deworming Programs in Middle Childhood and Adolescence 165**
Donald A. P. Bundy, Laura J. Appleby, Mark Bradley, Kevin Croke, T. Deirdre Hollingsworth, Rachel Pullan, Hugo C. Turner, and Nilanthi de Silva
- 14. Malaria in Middle Childhood and Adolescence 183**
Simon J. Brooker, Sian Clarke, Deepika Fernando, Caroline W. Gitonga, Joaniter Nankabirwa, David Schellenberg, and Brian Greenwood
- 15. School-Based Delivery of Vaccines to 5- to 19-Year Olds 199**
D. Scott LaMontagne, Tania Cernuschi, Ahmadu Yakubu, Paul Bloem, Deborah Watson-Jones, and Jane J. Kim
- 16. Promoting Oral Health through Programs in Middle Childhood and Adolescence 211**
Habib Benzian, Renu Garg, Bella Monse, Nicole Stauf, and Benoit Varenne
- 17. Disability in Middle Childhood and Adolescence 221**
Natasha Graham, Linda Schultz, Sophie Mitra, and Daniel Mont
- 18. Health and Disease in Adolescence 239**
Nicola Reavley, George C. Patton, Susan M. Sawyer, Elissa Kennedy, and Peter Azzopardi

PART 4 PACKAGES AND PLATFORMS TO PROMOTE CHILD AND ADOLESCENT DEVELOPMENT

- 19. Platforms to Reach Children in Early Childhood 253**
Maureen M. Black, Amber Gove, and Katherine A. Merseth

20. The School as a Platform for Addressing Health in Middle Childhood and Adolescence 269

Donald A. P. Bundy, Linda Schultz, Bachir Sarr, Louise Banham, Peter Colenso, and Lesley Drake

21. Platforms for Delivering Adolescent Health Actions 287

Susan M. Sawyer, Nicola Reavley, Chris Bonell, and George C. Patton

22. Getting to Education Outcomes: Reviewing Evidence from Health and Education Interventions 307

Daniel Plaut, Milan Thomas, Tara Hill, Jordan Worthington, Meena Fernandes, and Nicholas Burnett

23. Cash Transfers and Child and Adolescent Development 325

Damien de Walque, Lia Fernald, Paul Gertler, Melissa Hidrobo

PART 5 THE ECONOMICS OF CHILD DEVELOPMENT

24. Identifying an Essential Package for Early Child Development: Economic Analysis 343

Susan Horton and Maureen M. Black

25. Identifying an Essential Package for School-Age Child Health: Economic Analysis 355

Meena Fernandes and Elisabetta Aurino

26. Identifying an Essential Package for Adolescent Health: Economic Analysis 369

Susan Horton, Elia De la Cruz Toledo, Jacqueline Mahon, John Santelli, and Jane Waldfogel

27. The Human Capital and Productivity Benefits of Early Childhood Nutritional Interventions 385

Arindam Nandi, Jere R. Behrman, Sonia Bhalotra, Anil B. Deolalikar, and Ramanan Laxminarayan

28. Postponing Adolescent Parity in Developing Countries through Education: An Extended Cost-Effectiveness Analysis 403

Stéphane Verquet, Arindam Nandi, Véronique Filippi, and Donald A. P. Bundy

29. Economics of Mass Deworming Programs 413

Amrita Ahuja, Sarah Baird, Joan Hamory Hicks, Michael Kremer, and Edward Miguel
