

## CHARACTERISATION OF EXPLOSIVE WEAPONS RESEARCH PROJECT

### THE STUDY

---

This report examines five explosive weapon systems encountered in contemporary conflicts, analysing their accuracy, precision, characteristic use and effects in populated areas...

[READ MORE >](#)

### THE SIMULATOR

---

Combining the generated raw data from the research project, with the accuracy and effects parameters from recognised sources, the simulator demonstrates the effects of the studied explosive weapons in five fabricated scenarios of varying population densities...
