Handout 12
STAGE TWO: SCREENING TOOL FOR RAPID DISABILITY SCREENING ANALYSIS [1]

		Checkpoints	Yes	No
Summary	1	Are there disability-relevant projects or activities in the case study?		
Background Govt. sectoral policy Features of the sector Beneficiaries and parties involved Problems to be addressed Other interventions Documents available	2	Has the proposed project(s) involved a study of the degree to which it is disability-relevant? Has there been an analysis of to what degree the problem is disability relevant?		
	3	Have the relevant stakeholders implicated in issues of disability inclusion been identified? Have they been involved?		
Intervention Overall objectives Project purpose Results Activities	4	Are the objectives in line with the spirit of international conventions, commitments and programs in relation to disability rights and inclusion?		
	5	Is the project (activities and outputs) accessible to people with functional limitations? Can people with disabilities equally participate in the activities? Can they equally benefit from the outputs?		
Assumptions Assumptions at different levels Risks, uncertainty and flexibility	6	Are the assumptions take into account a disability dimension? Are the assumptions formulated in such a way that there is no person with disabilities in the project area? Are the assumptions formulated in such that persons with disabilities are not concerned by the sector of intervention?		

		Checkpoints	Yes	No
Implementation Physical and non-physical means Organisation and implementation procedures Timetable Cost estimate and financing plan	7	Is the degree of participation of persons with disabilities adequate with the relevant degree of inclusion?		
	8	Are disability inclusive aspects adequately reflected in the costs and resources estimates and time-table?		
Factors ensuring sustainability Policy support Appropriate technology Environmental protection Socio cultural aspects Institutional and management capacity Economic and financial analysis	9	Will the activity result in sustainable improvements from the standpoint of persons with disabilities?		
Monitoring and evaluation	10	Are the monitoring and evaluation arrangements sensitive to disability issues?		
Conclusions and proposals	11	Has the whole process been sensitive enough to disability issues?
