

# Simulation Exercise Management: Introduction

[Learnings](#)[Discussions](#)[Progress](#)[Collab Space](#)[Course Details](#)[Documents](#)[Announcements](#)[f share](#)[tweet](#)[in share](#)[mail](#)

This course is an introduction to Simulation Exercises and their value as part of wider Emergency Preparedness to raise awareness among a non-technical audience. The goal of this course is to support the development and management of an effective fit-for-purpose exercise programme, by providing consistent practical guidance and tools on exercise design and implementation.
