

## World Health Mapper

The screenshot displays the World Health Mapper interface. A central world map is visible, overlaid with a "Welcome" dialog box. The dialog box contains the following text:

**Welcome**

**Welcome To the World Health Data Portal**

The World Health Data Portal includes a number of indicators from the World Development Indicators Catalog produced by the World Bank and OECD Health Statistics produced by the Organization for Economic Co-operation and Development.

The World Development Indicators Catalog is the primary World Bank collection of development indicators, compiled from officially recognized international sources. It presents the most current and accurate global development data available, and includes national, regional and global estimates. For more information, see [World Development Indicators](#).

For more information about the OECD Health Database, see [OECD Health Statistics](#).

On the right side of the interface, there are navigation and selection options:

- Primary Indicator
- Select a topic
- Select an indicator (available after topic selected)
- Select group/category
- + Add Secondary Indicator
- Basemap and Optional Layers
- Layer Controls
- Login And Account Settings
