Does anyone have pointers as to where I can find mental health job vacancies in NGOs? I am a qualified mental health nurse and also hold a masters in International Public Health. I have work experience in both areas in Australia. Any pointers would be greatly appreciated.

Position Statement on Stigma

There is no doubt that cultural differences and exchanges can require great humility and sensitivity to avoid unintended insult or humiliation; the human desire to befriend and reach out can sometimes result in disagreements about entitlements and mutual obligations and rights'.
