Communities in snakebite endemic countries need to be properly educated on what to do in the event of a snakebite and what steps to take to lessen one from happening. These comprehensive prevention videos in multiple languages are resources YOU can share with school children, agricultural workers, homemakers. Help spread these important videos right on down to the people and regions affected.

Use our Larger High Res Files – ideal for playing on projectors at community events or schools, to share on social media, or played on iPads or on hospital televisions. Smaller Low Res Files are perfect to share via WhatsApp or mobile.

A tip for sharing videos through WhatsApp: Find the prevention video version you want to share through YouTube on your mobile phone. Select “share” and chose “WhatsApp” to spread the video through your contacts and groups.

****PLEASE! Drop us a note through the CONTACT US link below and let us know how you have used or plan
