What you and your country can do to tackle the coronavirus crisis

This page presents all our content related to COVID-19. It aims to:

1. Help people who want to understand or work on COVID-19 right now.
2. Help people who are considering biosecurity careers longer term.

This page will focus on leveraged opportunities in research, policy, technology and startups. Many people will find their best opportunities to help in their local community – supporting health workers, driving delivery vans, helping friends and family, looking after neighbours, and so on. If you already play a role in providing [essential services](#)  it's likely that working hard at your day job, while making efforts to avoid spreading the virus, is one of the most valuable things you can do.

We're updating this page daily. Please [contact us](#) to suggest improvements, opportunities to help, or if you notice mistakes.
