

Covid-19 National Rapid Response Teams Online Learning Package

This training is part of the national Rapid Response Team Training package, adapted to take into account specific issues pertaining to the COVID-19 outbreak. Several technical aspects presented here were developed and posted on different WHO platforms and for larger / different audiences. In this package, we have regrouped the essential elements that you, as a member of the national RRT, may wish to take into account as you perform COVID-19 related activities

The objectives of this online learning package is to provide National Rapid Response Teams members with the key knowledge and tools needed to early detect and effectively respond to a Covid-19 outbreak.

(VERSION 1.0 - 20th April 2020)

NOTE: The course may be taken without a user account. However, a certificate of completion  is available if you take the course with a user account. If needed, click on "Register " to create a user account (external partner) and then sign in before taking the course.
