

# Partnership to Accelerate COVID-19 Testing (PACT) in Africa – Social media materials

To help increase continental testing efforts and reduce COVID-19 transmission in Africa, Africa CDC has launched the Partnership to Accelerate COVID-19 Testing (PACT): Test, Trace, Treat. PACT will mobilize experts, community workers, supplies and other resources to TEST, TRACE and TREAT COVID-19 cases in a timely manner to minimize the impact of the pandemic on the Africa continent.

All stakeholders are being called on to coordinate, communicate, collaborate, and cooperate to support the PACT Initiative to control COVID-19 in Africa.
