This Collection links to the websites of providers of free training. As providers change their websites, some of these links may no longer be available. This collection can be downloaded directly from the Library.

This collection is monitored daily to identify new and updated content. It contains technical guidelines from leading global institutions responding to the Covid-19 pandemic. Current guidance is available from the UK Government, UNICEF, Indicators, Wash'Em and WHO.

Please send suggestions for additional content for this collection on the Library!

This collection is part of an ongoing series of linked collections. You might find other helpful collections on supporting WASH in the Elderly or Schools, H...
FRENCH FOLLOWS

Cette collection est mise à jour quotidiennement pour être à jour. Cette collection contient des directives techniques venant de diverses sources. Les opérations en EHA (eau, hygiène et assainissement) dans les zones affectées par la pandémie de Covid-19 proviennent de : Norfolk County Council and Public Health England. Veuillez envoyer des suggestions de contenu supplémentaire sur la bibliothèque. Créez votre propre collection sur la bibliothèque!
