

Updated COVID-19 Vaccine Introduction Readiness Assessment Tool (VIRAT/VRAF 2.0) - Version 3 December 2020

- 1 This Readiness Assessment tool is a national level tool. Data inputs should be entered into the worksheet 'National Readiness'. Suggestions to implement activities and assess progress are provided in the timeline**
- 2 Pre-planning activities should be initiated as early as Sept 2020 (earliest time interval provided) as COVID-19 vaccines may be available for introduction. The tool will be updated as soon as more certainty about global vaccine supply availability becomes available**
- 3 The reference page (Tab 2) contains a list of planning and technical documents that can be used for guidance in completing some of the activities**
- 4 Equivalence Tables are included to streamline a transition from either the old VIRAT or the VRAF to the new VIRAT/VRAF 2.0 tool. Tab 3 contains the Equivalence Tables**
- 5 Additional information on the purpose of this tool and how to use it is available on the Information Note provided in the accompanying documents**
