

The COVID-19 Vaccine Market Dashboard showcases supply information on COVID-19 vaccines, including the production capacity volumes, and doses secured through bilateral and multilateral agreements. All information is supplemented with preliminary manufacturers' responses to [UNICEF's Expression of Interest](#)

Pipeline: A view of the latest COVID-19 vaccine development pipeline

Capacity: Reported COVID-19 vaccine production capacity volumes

Agreements: Bilateral/multilateral, local manufacturing and distribution supply agreements

Price: Reported COVID-19 vaccine price per dose

The data found in this dashboard has been produced and processed from sources believed to be reliable. While the data is provided in good faith and to the best of our knowledge, it being up to date. While every effort is made to ensure the data quality, the data is provided "as is". The burden of fitness of the data lies completely with the user. Any reported findings are not the responsibility of UNICEF. UNICEF does not make any warranty, express or implied, including warranties of fitness for a particular purpose, or represents that it has any responsibility for the accuracy, completeness, reliability or usefulness of any information provided (either isolated or in the aggregate), or represents that its

Nothing arising from the data should be taken to constitute UNICEF's advice or a formal recommendation. The information contained in the dashboard does not constitute a warranty of fitness or recommendation by UNICEF of any company or product for any purpose, and does not imply preference over products of a similar nature. UNICEF does not warrant that the products listed are of acceptable quality, have obtained regulatory approval in any country, or that their use is otherwise in accordance with applicable laws, but not limited to patent laws. Inclusion of products in the database does not imply any approval by UNICEF of the products in question (which is the sole purview of the relevant regulatory authorities). This dashboard should therefore be interpreted with caution and should not be used to guide country decision-making.

* Includes one billion doses of vaccines in the COVAX R&D Portfolio that COVAX has first right of refusal access to through bilateral and multilateral agreements (including those secured from the manufacturing processes under development), subject to technical success and regulatory approval.
