

COVID-19 Diagnostics

Outbreak Coverage | COVID-19 Diagnostics

ASLM strives to keep laboratory networks in Africa connected and informed of diagnostic tools, techniques, procedures and advancements related to COVID-19 testing with interactive training and information sessions using the Extended Community Health Outcomes (ECHO) model and Massive Open Online Course (MOOC) platform from Future Learn.

COVID-19 ECHO Sessions

Watch COVID-19 ECHO sessions about diagnostics and testing, download the session presentations, and read the session Q&A [here](#). New sessions are added weekly.

Get notifications of future training sessions and courses by signing up for ASLM's mailing list [here](#).
