

COVID-19

Communication Toolkit

For Migrants, Refugees, and Other Limited-English-Proficient Populations

Updated Feb. 5, 2021

CDC created this communication toolkit to help public health professionals, health departments, community organizations, and healthcare systems and providers reach populations who may need COVID-19 prevention messaging in their native languages.

This toolkit provides:

- Current messaging from a trusted source.
- Information in plain language available for downloading and sharing.
- Translated materials to help communities disseminate messages to a wider audience.

Print Resources

Find print resources in multiple languages. Navigate to the Print Resources webpage and search by the language you are looking for, or click on the language below.
