

Episode #25 - Vaccines explained

11 February 2021 | Science conversation

Summary

If you get vaccinated, you can protect your children. Summary of other videos in this series.

Follow

Summary

Have you had COVID-19, should you still get vaccinated? Why are we not vaccinating children under 16? WHO's Chief Scientist Dr. Soumya Swaminathan explains these and other vaccine-related questions in Science in 7 Minutes this week.
