

# PHI/CDC GLOBAL HEALTH PODCAST

## ABOUT THE PODCAST:

The PHI/CDC Global Health Podcast features stories from the PHI/CDC Global Health Fellowship Program, a U.S. Centers for Disease Control and Prevention-funded program, implemented by the Public Health Institute, where Fellows are guided by leading global health experts from the CDC. Fellows work on the front lines of global health, developing the technical and professional skills needed to make meaningful contributions to today's global health challenges.
