

Episode #49 - Can I get infected after vaccination?

13 August 2021 | Science conversation

Summary

If you are fully vaccinated can you still get COVID-19? How frequent are reinfections and what does COVID-19 mean if you are fully vaccinated. WHO's Dr. Maria Van Kesteren O'Brien explains in Science in 5.

No matter whether you are vaccinated with [#COVID19](#) or are still waiting, [these](#) precautions to protect yourself and others:

- Avoid crowds
- Keep physical distance
- Open windows

you still get
