[Nursing Care at the End of Life](#) by Susan E. Lowey

ISBN: 9781942341192

Publication Date: 2016

The purpose of this textbook is to provide an in depth look at death and dying in this country and explore the vital role of the nurse in assisting patients and families along the journey towards the end of life. The text provides a basic foundation for understanding death and dying, including a brief historical examination of some main conceptual models associated with how patients cope with impending loss.

[Clinical procedures for safer patient care](#) by Glynda Rees Doyle

Call Number: OER Textbook

Publication Date: 2015

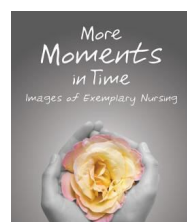

Clinical Procedures for Safer Patient Care was developed to ensure best practice and quality care based on the latest evidence, and to address inconsistencies in how clinical health care skills are taught and practiced in the clinical setting. The checklist approach, used in this textbook, aims to provide standardized processes for clinical skills and to help nursing schools and clinical practice partners keep procedural practice current
