

## Climate Box and the Students

Climate Box program engages students through interactive materials and fun activities such as quizzes, discussions and games

## Learn from Climate Box

Climate Box is a comprehensive learning toolkit that educates school children about climate change and inspires them to take action.

Designed to make learning fun and interesting, the Climate Box provides up-to-date information on climate change with a range of creative tasks, games, quizzes and experiments, as well as resources for teachers/educators.
