The Gender-Based Violence and Environment Linkages Center Works with Indigenous Women to Defend Mother Earth and Her Daughters </blog/gender-based-violence-and-environment-linkages-center-works-indigenous-women-defend-mother>

Indigenous women and girls are key actors in maintaining environmental sustainability – so why are they experiencing rising gender-based violence in connection with the environment and what can be done to stop it?

Where We Work

</where-we-work>
Climatelinks is a global knowledge portal for USAID staff, implementing partners, and the broader community working at the intersection of climate change and international development. The portal curates and archives technical guidance and knowledge related to USAID's work to help countries mitigate and adapt to climate change.
