# GLOBAL DRUG FACILITY DIAGNOSTICS, MEDICAL DEVICES & OTHER HEALTH PRODUCTS CATALOG

GDF is the largest global provider of quality-assured tuberculosis (TB) medicines, diagnostics, and laboratory supplies to the public sector. Since 2001, GDF has facilitated access to high-quality TB care in over 130 countries, providing treatments to over 30 million people with TB and procuring and delivering more than \$200 million worth of diagnostic equipment.

As a unit of the Stop TB Partnership, GDF provides a full range of quality-assured products to meet the needs of any TB laboratory globally. GDF provides more than 500 diagnostics products, including the latest WHO-approved TB diagnostic devices and reagents, together with the consumables and ancillary devices required to ensure a safe working environment. These products cater to all levels of laboratories, ranging from peripheral health centers to centralized reference laboratories, and provide countries with the latest WHO-recommended technologies for detecting TB and drug resistance.

To place an order for any product, please follow the step-by-step guide available on the GDF website.

All prices in this catalog are listed as ex-works (EXW) prices.

# GDF SMEAR MICROSCOPY KITS

## FEATURED PRODUCTS

### DIAGNOSTIC CONSUMABLES KIT – ZN LIGHT MICROSCOPY

*Product Code: 106522*

This kit provides a convenient way to receive all of the needed reagents and consumables to perform 1,000 smears using bright field (ZN) microscopy. Contents:

- 6 x 1 Lt Ziehl Neelsen stain solution (Strong Carbol Fuchsin 1% solution for ZN staining)
- 6 x 1 Lt Ziehl Neelsen decolourisation solution (Ready-made decolourisation solution of ZN stained slides – 3.0% HCl/alcohol)
- 6 x 1 Lt Ziehl Neelsen counterstaining solution, (Methylene blue 0.1%, counterstaining solution for ZN stain)
- 50 x 20 Microscope slides
- 100 x Filter papers
- 10 x Pencils
- 2 x Waterproof marker pens
- 500 x Plastic bags W 200 mm x L 300 mm
- 2 x 1000 x Wooden applicator sticks
- 400 x latex pairs of gloves (100 small, 200 medium, 100 large)
- 100 x Lens cleaning tissue
- 1 x Immersion oil 100 ml
- 5 x 0.5 Lt Denatured alcohol 96%
- 5 x 50 tabs Stable chlorine disinfectant
- 30 x 150 Carton of paper towels

### DIAGNOSTIC CONSUMABLES KIT – LED / AURAMINE MICROSCOPY

*Product Code: 106523*

This kit provides a convenient way to receive all of the needed reagents and consumables to perform 1,000 smears using LED microscopy. Contents:

- 1 x Auramine stain solution, reagents (Set of 3 components: 200 gr – Colourless Phenol crystals  $C_6H_6O$ , 1 Lt – Ethanol for stain solutions  $C_2H_6O$  and 5 gr – Auramine O  $C_{17}H_{20}N_3O$  to produce Auramine stain solution)
- 6 x 1 Lt Auramine decolourisation solution (Ready-made decolourisation solution 0.5% HCl/alcohol)
- 6 x 1 Lt Auramine counterstaining solution (Methylene blue 0.3%, counterstaining solution for auramine O stain)
- 50 x 20 Microscope slides
- 100 x Filter papers
- 10 x Pencils
- 2 x Waterproof marker pens
- 500 x Plastic bags W 200 mm x L 300 mm
- 1000 x Wooden applicator sticks
- 400 x latex pairs of gloves (100 small, 200 medium, 100 large)
- 100 x Lens cleaning tissue
- 1 x Immersion oil 100 ml
- 1 x 0.5 Lt Denatured alcohol 96%
- 5 x 50 tabs Stable chlorine disinfectant
- 30 x 150 Carton of paper towels

## EQUIPMENT AND STARTER KIT FOR LED OR ZN LIGHT MICROSCOPY

*Featured product Code: 106526*

This starter kit provides auxiliary equipment needed to perform microscopy. Contents:

- 2 x Glass alcohol lamp with 1-meter pre-cut wicks
- 1 x Timer
- 2 x Staining rack
- 2 x Slide drying racks
- 6 x Slide storage boxes
- 2 x Slide-holding forceps
- 4 x Reagent bottle
- 3 x Staining bottle 250 ml
- 3 x Staining bottle 500 ml
- 1 x Beaker 250 ml
- 1 x Beaker 1000 ml
- 1 x Measuring cylinder 10 ml
- 2 x Goggles
- 4 x Funnels (1 large 155 mm, 1 medium 120 mm and 2 small 45 mm) with 100 filter papers
- 1 x Set of pencil sharpener with 10 pencils
- 3 x Stands for waste bags with 500 plastic bags
- 1 x Paper towel dispenser with 1 carton of paper
- 5 x GLI Handbook on Lab Diagnosis of TB by Sputum Microscopy
- 1 x SOPs
- 1 x WHO Policy statement

106526	Equipment and starter kit for ZN technique	1	117.50

# LED / BRIGHT LIGHT MICROSCOPY SUPPLIES

GDF supplies microscopes and all of the necessary reagents and consumables to perform bright field (ZN) and LED fluorescent smear microscopy.

## FEATURED PRODUCTS

### BINOCULAR BRIGHT FIELD MICROSCOPE

*Product Code: 106535*

Olympus binocular microscope "CX23LEDRFS1"-set with LED illumination. Includes a binocular tube, stand with quadruple revolving nose-piece, eyepieces 10x with Helicoid adjustment (FN 20, anti-fungus), right-handle double plate stage, Abbe condenser, power cord, plan objectives (anti-fungus) 4x, 10x, 40x, 100x.

### LED MICROSCOPE

*Product Code: 106531*

ZEISS fluorescence microscope "Primo Star iLED" (fixed Koehler version) with binocular tube 30°, equipped with quadruple revolving nosepiece (tilted backwards) and objectives "Planachromatic" 10x, 20x, 40x and 100x (oil), with white LED illumination for transmitted-bright field and blue LED illumination for epi-fluorescence.

### SPUTUM CONTAINERS

*Product Code: 106525*

Break/leak-resistant (waterproof) containers, made of transparent plastic pure polyethylene or polypropylene, completely combustible without generating toxic compounds; wide mouth to easily collect sputum, opening angle of 270°; IEC 60529 certified IP67; a multi-thread closing screw cap of double thread; with identification through a frosted writing panel that accepts pencil; dimensions: Volume of 80 ml; height of 66 mm; mouth diameter of 52 mm.

# RAPID ANTIGEN DETECTION TESTS (LAM)

The Determine TB LAM Ag test for the detection of lipoarabinomannan (LAM) antigen in urine is now available in the GDF Diagnostics Catalog.

## FEATURED PRODUCT

### DETERMINE TB LAM AG TEST

*Product Code: 106749*

The Determine TB LAM Ag test is the first rapid, urine-based, point-of-care test for TB among people living with HIV. The product is supplied in kits of 25 tests with a reference scale card.

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)
<b>RAPID TESTING</b>			
106749	Determine TB LAM Ag 25T	25 tests	92.50

# GENEXPERT SYSTEM SUPPLIES <sup>2</sup>

GDF can supply 6- and 10- colour module GeneXpert systems in multiple module configurations as well as 10-color satellite instruments that can be *daisy chained* to current 6-color systems. Xpert MTB/Rif, MTB/Rif Ultra and MTB/XDR cartridges are available from GDF along with warranties and other auxiliary items.

## FEATURED PRODUCTS

### GENEXPERT GX-IV 4-MODULE SYSTEM

*6 and 10-color*

GeneXpert 4-module instrument with desktop/laptop computer and barcode reader.

### GENEXPERT GX-II 2-MODULE SYSTEM + DAISYKIT

*10-color*

GeneXpert 2-module satellite equipment and daisy chain kit.

#### XPRT MTB/RIF KIT OF 50 TESTS

Product Code: CGXMTB-RIF-50 Xpert MTB/RIF kit of 50 test cartridges for detection of MTB complex and rifampicin resistance.

#### XPRT MTB/RIF ULTRA KIT OF 50 TESTS

Product Code: GXMTB/RIF-ULTRA-50 Xpert MTB/RIF ULTRA kit of 50 test cartridges for detection of MTB complex and rifampicin resistance.

#### XPRT MTB/XDR KIT OF 10 TESTS

Product Code: GXMTB/XDR-10 Xpert MTB/XDR assay kit of 10 test cartridges for detection of extensively drug-resistance (XDR) MTB complex DNA.

<sup>2</sup> Concessional prices are available for public sector buyers from eligible countries. For the list of eligible countries, see: <https://www.finddx.org/find-negotiated-product-pricing/>

# LOOP-MEDIATED ISOTHERMAL AMPLIFICATION (TB-LAMP) SUPPLIES <sup>3</sup>

The equipment and Loopamp reagents required to perform the loop-mediated isothermal amplification (LAMP) technique are available in the GDF Diagnostics Catalog. Installation, training and maintenance services are also listed.

## FEATURED PRODUCTS

### HUMALOO T

*Product Code: 106632*

Pre-programmed incubator with built-in heating block, reaction block, timer and fluorescence detection unit for lysis, amplification, enzyme inactivation and visual result interpretation.

### LOOPAMP MTBC DETECTION KIT

*Product Code: 106634*

Qualitative in vitro diagnostic test for the detection of MTB complex. The amplification under isothermal conditions enables within a short time the fluorescence or turbidity-based detection of MTB complex.

### LOOPAMP PURE DNA EXTRACTION KIT

*Product Code: 106635*

DNA extraction and isolation method for sputum samples through lysis/heating, removal of inhibitors and elution of DNA directly into the amplification tube.

<sup>3</sup> Concessional prices are available for public sector buyers from eligible countries.

## LIQUID CULTURE SUPPLIES <sup>4</sup>

Laboratories performing liquid culture techniques using the BACTEC MGIT 960 or 320 systems or non-commercial techniques may find all the needed equipment, reagents and consumables in the GDF Diagnostics Catalog.

### FEATURED PRODUCTS

#### **BACTEC MGIT 960 SYSTEM**

*Product Code: 106013*

Non-radiometric, fully automated system (annual capacity of 8,300 tubes) for the rapid detection of mycobacteria in clinical specimens, as well as antimicrobial susceptibility testing of anti-tuberculosis drugs.

This product includes Starter Kit (440107) and AST Starter Kit (445941).

#### **BACTEC MGIT 320 SYSTEM**

*Product Code: 106596*

Non-radiometric, fully automated system (annual capacity of 2,700 tubes) for the rapid detection of mycobacteria in clinical specimens, as well as antimicrobial susceptibility testing of anti-tuberculosis drugs.

This product includes Starter Kit (440107) and AST Starter Kit (445941).

<sup>4</sup> For MGIT products, concessional prices are available for public sector buyers from eligible countries. For the list of eligible countries, see: <https://www.finddx.org/find-negotiated-product-pricing/>

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)

#### RAPID TESTING

106611	Capilia TB-Neo – Rapid test for detection of MPT 64 Antigen	100	100.00
106612	Capilia TB-Neo Extraction buffer	20 ml	8.00

# LINE PROBE ASSAY (LPA) SUPPLIES

GDF supplies all of the necessary equipment, reagents and consumables to perform line probe assays (LPA). The catalog includes LPA kits for the detection of Mycobacterium species and drug susceptibility to first-line and second-line medicines

## GENOSCHOLAR

### NTM+MDRTB II

Product Code: 106682

Molecular line probe assay for identification of Mycobacterium species and resistance to rifampicin and isoniazid from smear-positive specimens and cultures. Kit contains necessary solutions/reagents for DNA amplification and DNA detection steps

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)
<b>EQUIPMENT</b>			
106683	Multiblot NS-4800	1	14,000.00

## GENOTYPE

### GenoType MTBDR plus V2.0, 96 test

Product Code: 106512

Molecular line probe assay for identification of *M. tuberculosis* complex and its resistance to rifampicin and isoniazid from smear-positive specimens and cultures. Product includes Master mix.

### GenoType MTBDRsl V2.0, 96 tests

Product Code: 106513

Molecular line probe assay for identification of *M. tuberculosis* complex and its resistance to fluoroquinolones and aminoglycosides/cyclic peptides from rifampicin-resistant or MDR sputum specimens or cultures. Product includes Master mix.

# MDR-TB Assay

BD MAX is a fully integrated and fully automated real-time PCR system. It is considered a centralized platform as it can run up to 24 tests at a time.

The BD MAX MDR-TB Assay detects MTBC and if MTBC is detected, then rifampicin resistance (rpoB gene) and isoniazid resistance (inhA and KatG genes).

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)
--------------	-------------	--------------------------	----------------

## EQUIPMENT

# INTERFERON-GAMMA RELEASE ASSAYS (IGRAS)

The reagents required to perform IGRAs for detection of latent TB infection are available in the GDF Diagnostics Catalog.

## QUANTIFERON-TB GOLD PLUS (QFT-PLUS) TEST KIT

Product code: 106671, 106672

The QFT-Plus assay is a whole-blood test that uses specialized blood collection tubes and involves the ELISA method to detect interferon-gamma concentration. The test requires use of products from a QFT-Plus kit (available options include 2-plate or 20-plate ELISA kits) and QFT-Plus blood collection tubes. Blood collection tubes come as packs with or without cannulas and brackets, and high altitude options are available for collection sites at altitudes between 1020 m (3350 ft) and 1875 m (6150 ft). Tubes should be incubated within 16 hours of blood collection.

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)
106671	QFT-Plus test kit: ELISA 2 x 96 (for 44 patient tests)	1	279.40
106672	QFT-Plus test kit: : ELISA 20 x 96 (for 440 patient tests)	1	2,798.40
106673	QFT-Plus blood collection tubes (for 50 patient tests)	200 tubes	477.00
106674	QFT-Plus blood collection tubes - High Altitude (for 50 patient tests)	200 tubes	477.00

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)
106675	QFT-Plus blood collection tubes: Single Patient Pack (for 10 patient tests)	40 tubes	95.40
106676	QFT-Plus blood collection tubes: Single Patient Pack - High Altitude (for 10 patient tests)	40 tubes	95.40

Countries eligible for QFT-Plus concessional prices through GDF include:

- **Low- and middle-income countries:** All, *except* Turkey
- **High-income countries:** Antigua and Barbuda, Bahamas, Barbados, Chile, Estonia, Guam, Hong Kong SAR China, Israel, Latvia, Lithuania, Macao SAR China, New Caledonia, Palau, Panama, Seychelles, St. Kitts and Nevis, Taiwan China, Trinidad and Tobago, Uruguay

## T-SPOT.TB test kit

Product code: 106665

The T-SPOT.TB IGRA assay is a whole-blood test that uses standard blood collection tubes and involves the ELISPOT method of counting spots where interferon-gamma is secreted by T cells. The test requires use of products from the T-SPOT.TB test kit, AIM-V culture medium and T-Cell Select (alternatively, Leucosep tubes may be used). T-Cell Xtend, allowing blood samples to be processed up to 32 hours after collection, is optional.

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)
106665	T-SPOT.TB test kit (for 24 patient tests)	1	168.00
106666	T-Cell Xtend (for 40 patient tests)	3 x 2 ml	115.00
106667	T-Cell Select kit (for 144 patient tests) <sup>5</sup>	1	693.00
106668	Leucosep tubes (for 50 patient tests)	50 tubes	89.00
106669	AIM-V culture medium	50 ml	23.00
106670	AIM-V culture medium	500 ml	37.00

Countries eligible for T-SPOT.TB concessional prices through GDF include:

- **Low- and middle-income countries:** All, except Azerbaijan, Brazil, Bulgaria, China, Democratic People's Republic of Korea, India, Indonesia, Iran, Jordan, Kazakhstan, Lebanon, Malaysia, Maldives, Morocco, Myanmar, Peru, Philippines, Russian Federation, Thailand, Turkey, Tunisia, Ukraine, Vietnam
- **High-income countries:** Antigua and Barbuda, Bahamas, Barbados, Brunei Darussalam, New Caledonia, Palau, Seychelles, St. Kitts and Nevis, Trinidad and Tobago

<sup>5</sup> This product is recommended for procurement by the Expert Review Panel for Diagnostics. As of February 2022, there is no WHO Global TB Programme policy recommendation related to this product.

# COVID-19 Tests

In response to the global pandemic caused by the SARS-CoV-2 virus, GDF has included technologies to support programmes responding to COVID-19.

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)

106685	BD MAX PCR Cartridges, 24 cartridges (437519)	24 tests	8.64

<sup>6</sup> Concessional prices are available for public sector buyers from eligible countries. For the list of eligible countries, see: <https://www.finddx.org/find-negotiated-product-pricing/>

# ULTRAPORTABLE DIGITAL X-RAY SYSTEMS

Radiographic Systems are used in a variety of X-ray imaging applications including chest X-ray for TB screening. All Ultraportable Digital X-ray Systems supplied by GDF include all accessories and are covered by 1-year of initial warranty. 'Installation & Training' is a mandatory item that must be procured when procuring the X-ray System itself. Warranty extensions of 1 or 3 years are also available that should be procured at the time of procuring the X-ray System itself.

## FEATURED PRODUCTS

### FDR Xair System Full kit

Product Code: 200015

FDR Xair is a light and compact Ultraportable Digital X-ray System fully battery-powered capable of 100 exposures with fully charged batteries that can be used for TB screening and various other indications.

#### Contents:

- 1 x FDR Xair Generator XD2000
- 1 x FDR Xair Generator Carbon Stand
- 1 x FDR Xair Detector D-EVO II
- 1 x FDR Xair Detector Carbon Stand
- 1 x FDR Xair Console advance DR-ID 300CL w/ Application software DX-CL
- 1 x FDR Xair System Carrying Case
- 1 x FDR Xair Power bank
- 1 x Protective Lead Apron
- 1 x Portable radiation warning sign
- 10 x Shock stickers

200018	FDR Xair System Full kit Warranty Extension - 3 years	1	15,000.00

## FEATURED PRODUCTS

### Delft Light Full kit

Product Code: 200006

Delft Light is an Ultraportable Digital X-ray System fully battery-powered. It is capable of over 200 exposures with fully charged batteries and can also be used for other indications.

Contents:

- 1 x Delft Light Generator TR90/20
- 1 x Delft Light Generator Mobile Stand
- 1 x Delft Light Detector Canon CXDI 702-c
- 1 x Delft Light Detector VersariX Portable Panelhanger
- 1 x Delft Light Workstation Canon NE
- 1 x Delft Light Software Canon NE
- 1 x Delft Light Backpack
- 1 x Mobisun Solar Panel
- 1 x Protective Lead Apron
- 5 x Portable radiation warning signs
- 10 x Shocks sticker

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)
<b>EQUIPMENT</b>			
200006	Delft Light Full kit	1	66,750.00
<b>SERVICES</b>			
200007	Delft Light Full kit Installation and Training	1	2,500.00

# CAD-AI SOFTWARE

Computer-Aided Detection based on Artificial Intelligence (CAD-AI) software may be used for interpretation of digital chest X-ray (CXR) in screening and triage of adults and adolescents (15+ years) for TB disease. All CAD software supplied by GDF include a perpetual license processing CXR both online and offline with no limitation in the number of reads and 1-year of initial Support & Maintenance. Related 'Equipment' and 'Installation & Training' are mandatory items that must be procured when procuring the software. Support and Maintenance Extensions of 1 and 3 years are also available that cover both software and hardware warranty.

## FEATURED PRODUCTS

### InferRead DR Chest Software *(Perpetual License)*

Product Code: 200001

*(Laptop to be procured separately)*

InferRead DR Chest Software was introduced in the market in 2020. It is able to detect multiple different pathologies including TB, for which it processes both antero-posterior (AP) and postero-anterior (PA) chest X-ray in less than 10 seconds. The output is a binary outcome for TB, continuous values for TB-probability and annotated images with rectangles indicating the areas identified as TB.

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)
<b>SOFTWARE</b>			
200001	InferRead DR Chest Software (Perpetual License)	1	2,700.00
<b>EQUIPMENT</b>

<b>SERVICES</b>			
200003	InferRead DR Chest Installation and Training	1	248.00
200004	InferRead DR Chest Support and Maintenance Extension 1 year	1	232.00
200005	InferRead DR Chest Support and Maintenance Extension 3 years	1	522.00

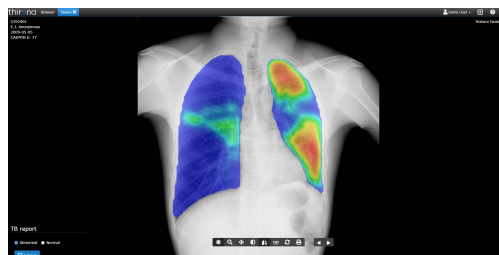

## FEATURED PRODUCTS

### CAD4TB Software

*(Perpetual License)*

Product Code: 200010

CAD4TB is the first CAD software released on the market in 2007. It is able to detect many different abnormal structures that may be related to TB from postero-anterior (PA) chest X-ray in around 20 seconds. The output is a score ranging from 0-100 shown together with a heatmap and translated into a pre-set binary (positive / negative) score.

PRODUCT CODE	DESCRIPTION	NUMBER OF UNITS PER PACK	PRICE (IN USD)
<b>SOFTWARE</b>			
200010	CAD4TB Software (Perpetual License)	1	12,750.00
<b>EQUIPMENT</b>			
200011	CAD4TB box	1	2,750.00
<b>SERVICES</b>			
200012	CAD4TB Installation and Training	1	1,150.00

200014	CAD4TB Support and Maintenance Extension 3 years	1	11,475.00

# DIAGNOSTICS CONNECTIVITY SOLUTION

Diagnostics Connectivity Solutions set-up national laboratory networks by collecting data from diagnostic instruments at the facility level, displaying real-time information and sending automated notifications and reports to pre-defined users and external systems (e.g., health / laboratory management information systems, electronic register) via Internet, mobile data networks or text messaging (SMS).

## FEATURED PRODUCTS

### DataToCare Software Application

DataToCare Solution is composed of a pre-deployment Landscape Analysis, a Software customized on client's needs supplied with a perpetual license for an infinite number of users and 1-year of Support & Maintenance, necessary hardware (e.g., modems and global SIM cards usable in over 190 countries with unlimited data transfer) and options for hosting and training.

Additional recurrent support and specific services are also available, allowing any client to set-up its own solution or to maintain its current solution for sustainable use.
