WHY LAUNCH A NEW CAMPAIGN FOR ANGINA?

This campaign by Servier and the World Heart Federation builds on the success of the USE ❤️ TO ACT NOW ON ANGINA campaign. In addition to raising awareness of the importance of acting now, this campaign explores some about the common, but less well-known signs of angina, and explains why it's key to not only act now, but act early in angina.

Nearly 200 million people are affected by ischemic heart disease across the world. But almost half of them don't know they have it. That's because a lot of people ignore the symptoms or don't realise the pain or discomfort they are feeling is actually angina.

This campaign aims to tackle that lack of awareness and some of the misconceptions around angina so people can act now and live their lives to the full.

CONTENTS

1. Campaign objectives	4

2.1 Video	6
2.2 Patient testimonial videos	7
2.3 Social media posts	8
2.4 Poster	9
3. Assets use	10
3.1 How to use these assets	11
4. Next steps	12

1.

CAMPAIGN OBJECTIVES

Communicate 3 key messages

1. AWARENESS

Be **AWARE!** Seemingly unrelated symptoms like breathlessness, back or jaw pain and indigestion on physical effort could be angina. Symptoms vary from person to person, so don't ignore them if they persist.

2. ACTION

Be pro-**ACTIVE!** Just as angina symptoms vary from person to person, appropriate treatment also needs to be tailored to every individual's needs. Talk to a doctor about your symptoms for a personalised treatment.

3. ADHERENCE

Even the best medicines don't work if they aren't taken. Use medications as prescribed, see your doctor regularly and follow-through on recommended lifestyle changes.

2.

CAMPAIGN ASSETS
