

SEXUAL AND REPRODUCTIVE HEALTH AND RIGHTS

INFOGRAPHIC SNAPSHOT

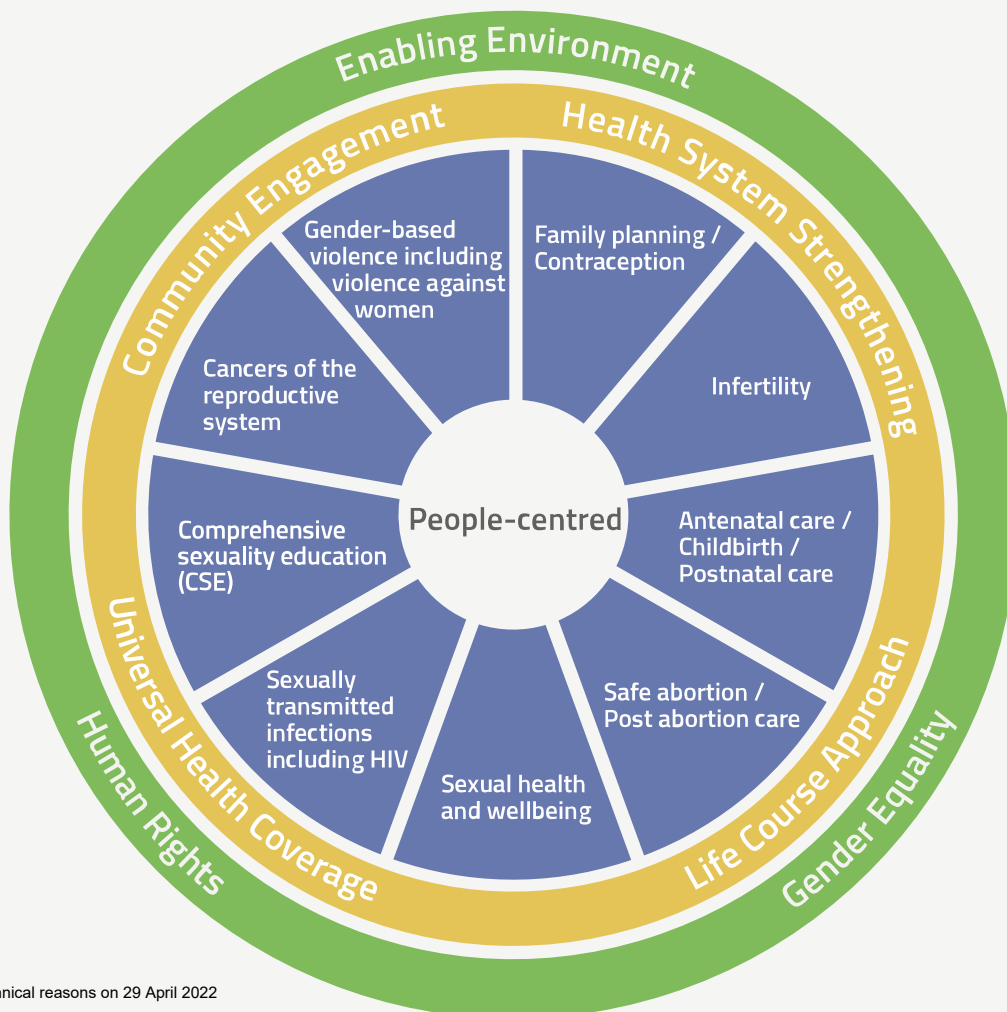

MALAWI 2021^{1*}

This country snapshot provides an overview of national data relating to sexual and reproductive health and rights (SRHR) throughout the life course. Realization of SRHR² requires provision of comprehensive, people-centred services, that address the different elements of SRHR, and which are supported by an enabling environment, quality health systems, and meaningful community engagement. Multiple, synergistic cross-linkages exist within and between the different SRHR elements, leading to sequential outcome benefits throughout the life course.³

By highlighting the national SRHR situation - including successes, areas for improvement, and data gaps - this snapshot can be used for determining priorities, planning of programmes, resource mobilization, and strengthening of health systems, service delivery and community engagement.

This snapshot uses the latest data publically available at the publication date¹, from reputable international sources (see endnotes for the year and source of each data point). It is acknowledged that intersectionality and people-centredness are not well reflected in available data, and that many categories of information currently collected are gender-binary.

*Reissued for technical reasons on 29 April 2022

CONTEXT

The Sustainable Development Goals (SDGs) and Universal Health Coverage (UHC) agendas provide important opportunities to realise sexual and reproductive health and rights for all, including key and vulnerable populations, and to reimagine and enhance equitable access and quality coverage of SRH services. Delivery of comprehensive SRHR interventions throughout the life course is an essential component of UHC.

ND = No Data

Global Targets: Achieved ● Challenges remain ● Major challenges remain ●

Demographic data

Sexual and Reproductive Health

HIV

	 Number of new HIV infections ¹⁴	 Number of people living with HIV ¹⁵	 Number of AIDS related deaths ¹⁶
 Child (0-14)	2,500	65,000	1,900
 Female (15-24)	8,500	80,000	<1,000
 Male (15-24)	3,400	41,000	<1,000
 Female (25-49)	7,900	410,000	3,300
 Male (25-49)	9,100	270,000	3,500
 Female (50+)	<1,000	110,000	1,200
 Male (50+)	<1,000	93,000	1,400
Total	33,000	1.1m	13,000

ENABLING ENVIRONMENT

Supportive laws and policies, and access to justice are essential to eliminate stigma, discrimination, violence, coercion and exclusion in health care. Such laws and policies create a safe and supportive enabling environment that meets the SRHR needs of all people, especially key and vulnerable populations. Harmful laws need to be amended, and damaging practices need to be countered at all levels.

ND = No Data

Global Targets: Achieved ● Challenges remain ● Major challenges remain ●

Laws and policies

Impact on integrated SRHR: Supportive ● Partial ● Punitive ●

People living with HIV

Are there laws or policies that:

Criminalize transmission, exposure or non-disclosure of HIV ¹⁹	Partial ●
Restrict entry, stay and residence of people living with HIV ²⁰	No ●
Protect against discrimination on basis of HIV status ²¹	Yes ●
Allow HIV self-testing ²²	Yes ●
Make oral pre-exposure prophylaxis for HIV (PrEP) available ²³	No ●

Key populations

Are there laws or policies that:

Criminalize same-sex sexual behaviour ²⁴	Yes ●
Criminalize sex work ²⁵	Partial ●
Allow the death penalty for people convicted of drug-related offences ²⁶	No ●
Support a harm reduction approach for people who use drugs ²⁷	No ●
Legally recognize a third gender ²⁸	ND ●

SRHR and gender-based violence

Are there laws or policies that:

Allow safe abortion ²⁹	Yes ●
- To save a woman's life	Yes ●
- To preserve a woman's physical health	ND ●
- To preserve a woman's mental health	ND ●
- In case of rape	ND ●
- In case of incest	ND ●
- Owing to foetal impairment	ND ●
- For economic or social reasons	ND ●
- On request	ND ●
Require spousal consent for married women to access SRH services ³⁰	No ●
Explicitly criminalize marital rape ³¹	No ●
Criminalize domestic violence ³²	Yes ●
Criminalize sexual harassment ³³	No ●
Require provision of CSE in primary school ³⁴	Yes ●
 National strategy or policy on self-care interventions ³⁵	ND ●

Extent to which laws and regulations guarantee access to SRH care and education (SDG 5.6.2)³⁶

Age of Consent

Legal age for consent to sexual intercourse³⁷

Legal age for marriage without parental consent³⁸

Laws requiring parental consent for adolescents to access SRH services³⁹ Yes <14yrs

Women's empowerment

Percentage of women that believe they should have final say in decisions regarding their own healthcare⁴⁰

Percentage of women (15-49) making SRHR decisions⁴¹

Global Gender Gap Index⁴²

Ranking (out of 156 countries)
Score (1.0 = parity)

Stigma

Percentage of general population reporting discriminatory attitudes towards people living with HIV⁴³

HEALTH SYSTEMS

Universal health coverage (UHC) is central to achieving better health and well-being for all people throughout the life course. Reaching UHC requires transforming health systems away from vertical and top-down approaches towards integrated, people-centred, supportive systems for health. Comprehensive SRHR, within UHC, is crucial to support progress towards advancing health and wellbeing for all.

ND = No Data

Global Targets: Achieved ● Challenges remain ● Major challenges remain ●

Universal Health Coverage

Coverage of essential health services (SDG 3.8.1)⁴⁴

Catastrophic health spending (SDG 3.8.2)
Households where expenditure on health is greater than:

10% of income⁴⁵

25% of income⁴⁶

Governance

Legislation on universal health coverage⁴⁷

Health workforce

Skilled health professionals (per 10,000 population)

Doctors^{48a}

Nurses and Midwives^{48b}

Pharmacists^{48c}

Supply Chain

Availability of essential medicines and commodities in Public Health facilities⁴⁹

Male condom stock-out in the past 12 months⁵⁰

Health information

Paper-based or electronic health information system⁵¹

Both

Antenatal care data captured in health information system⁵²

Health financing

Total health expenditure as a percentage of GDP⁵³

Government health expenditure as percentage of GDP⁵⁴

Total health expenditure per capita (USD)⁵⁵

Government expenditure on reproductive health per capita (USD)⁵⁶

Integrated service delivery

Health facilities delivering HIV counselling and testing with SRH services⁵⁷

Health facilities delivering HIV treatment and care with SRH services⁵⁸

SERVICE DELIVERY: REPRODUCTIVE HEALTH

Women have the right to decide whether, when and how many children they want to have, and to do so safely, without fear of acquiring STIs including HIV, or of maternal morbidity and mortality. Women require access to a choice of modern contraceptive methods and quality antenatal, childbirth and postnatal care, safe abortion care (to the full extent of the law), post abortion care and infertility services.

ND = No Data

Global Targets: Achieved ● Challenges remain ● Major challenges remain ●

Contraception / Family Planning

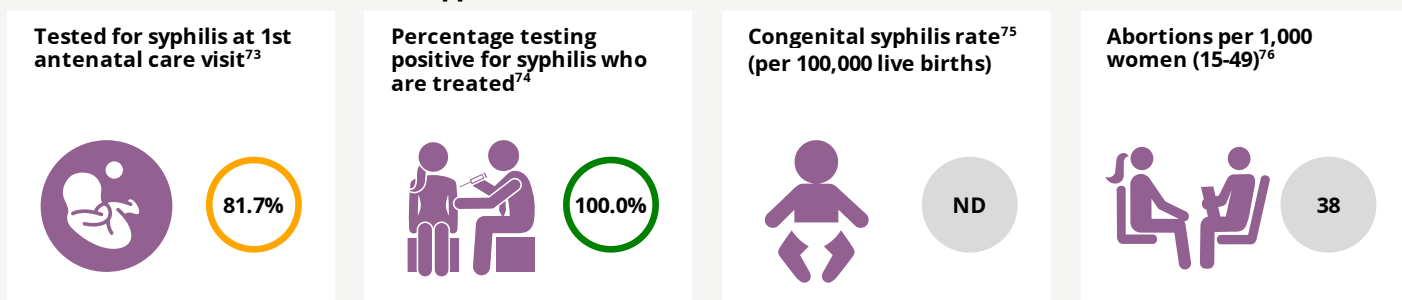

Antenatal, delivery and postnatal care

Vertical transmission of HIV

Vertical transmission of syphilis

SERVICE DELIVERY: SEXUAL HEALTH

Sexual health is a state of physical, emotional, mental and social well-being in relation to sexuality. It requires a positive and respectful approach to sexuality and sexual relationships, as well as the possibility of having pleasurable and safe sexual experiences, free of coercion, stigma, discrimination and violence.

ND = No Data

Global Targets: Achieved ● Challenges remain ● Major challenges remain ●

HIV prevention

Condom use at last high risk sex (15-49)⁷⁷

61.9%

Male circumcision⁷⁸

27.8%

95-95-95 testing and treatment cascade

People living with HIV who know their status (15+)⁷⁹

Female

94%

Male

86%

People living with HIV who know their status who are on ART (15+)⁸⁰

Female

87%

Male

67%

People living with HIV on ART who achieve viral load suppression (15+)⁸¹

Female

81%

Male

62%

PrEP and HIV self-testing

Current oral pre-exposure prophylaxis for HIV (PrEP) users⁸²

459

HIV self tests conducted⁸³

101,256

Syphilis

Active syphilis among men who have sex with men⁸⁴

9.4%

Active syphilis among sex workers⁸⁵

ND

Gender based violence

Women experiencing physical or sexual violence in past 12 months (15-49)⁸⁶

24.3%

Wife agrees husband justified beating her - at least one reason specified⁸⁷

16.3%

Care/support provided by service delivery points in cases of rape or incest

First-line support (psychological first aid)⁸⁸ Yes ●

Emergency contraception for women (within 5 days)⁸⁹ Yes ●

Safe abortion (in accordance with national laws)⁹⁰ No ●

Post-exposure prophylaxis for STIs and HIV (within 72 hours)⁹¹ Yes ●

Cervical cancer

Existence of national HPV vaccination programme⁹²

Yes

Existence of national cervical cancer screening programme⁹³

Yes

Type of programme⁹⁴

Organized population based screening

Coverage of national screening programme⁹⁵

10-50%

SERVICE DELIVERY: SEXUAL AND REPRODUCTIVE HEALTH FOR ALL

Everyone has the right to access sexual and reproductive health services and information, free of force or coercion, and irrespective of age, sex, sexual orientation, gender identity, ability, socio-economic or occupational status.

ND = No Data

Global Targets: Achieved ● Challenges remain ● Major challenges remain ●

Harmful practices

Comprehensive Sexuality Education

Adolescent sexual health

Key populations¹⁰²

	Population size estimate	HIV prevalence	Knowledge of HIV status	Condom use at last sex
 <p>Men who have sex with men¹⁰³⁻¹⁰⁶</p>	42,600	6.8%	ND	44.0%
 <p>Sex workers¹⁰⁷⁻¹¹⁰</p>	36,400	55.0%	72.4%	65.0%
 <p>People who inject drugs¹¹¹⁻¹¹⁴</p>	ND	ND	ND	ND
 <p>Transgender people¹¹⁵⁻¹¹⁸</p>	400	ND	80.8%	ND
 <p>Prisoners¹¹⁹⁻¹²²</p>	14,000	19.0%	ND	ND

1. The cutoff for data included in this Infographic Snapshot is 15/04/2021. The year provided for each endnote is the date of the latest available data with an earliest date of 2011. Where data is not available in an international data source 'No data' is stated. This does not mean that no data exists for this indicator but that no data was found in internationally validated data sources.
