

Standard review form for national deployment and vaccination plan for COVID-19 vaccines (NDVP)

29 January 2021 | COVID-19: Critical preparedness, readiness and response

Standard review form for national deployment and vaccination plan for COVID-19 vaccines (NDVP)

[Download \(139.5 kB\)](#)

Overview

The National Deployment and Vaccination Plan for COVID-19 vaccines (NDVP): Standard Review Form (SRF) is an excel-based resource used by Regional Review Committees to assess NDVPs submitted to the [Partners Platform](#). The SRF enables countries to prepare their NDVPs for the review process and supports regions in conducting a consistent and uniform assessment of the submitted NDVPs. This resource should be used in conjunction with the National Deployment and Vaccination Plan for COVID-19 vaccines (NDVP): Submission and Review Process document.
